

Creative Director: Hannah Leibovich

Designer: Ray Brody

- Love the typeface choices
 - Full-screen images are great
 - Maybe increase the navigation band height so yosemite national park can have one word per row (vertically stacked) or push the menu items to the right so the full name can be spelled out in one line
 - What does it look like if the black background + text headers are a dark blue/navy to soften the appearance a little?
 - Hover states are a nice bit of interactivity with the site
- Great job Ray!
